

I WANT TO KNOW (reprise) - The Finalé

We complain about the noise, the clutter, the mechanical face of technology. But imagine life without it...

Can you hear the wind beating against the window? The cold creeping under the door? The darkness? The hunger? The sickness? The silence?

If life is to have a human face, we must be the ones responsible for putting it on. The history of science and invention has given us many tools. How will we use them? We have centuries of experience to learn from. And we have a desire to know, and to do it right, that will carry us through. May we never lose that desire.

Have you ever held Nature in your hand?
Have you wanted to know, to understand?
What makes the air, what makes the land?
I want to know! I want to know!

Wanting knowledge will make your spirit soar!
Having knowledge will unlock every door.
Then you'll be coming back for more!
I want to know!

I want to know how I can fly.
I want to know what makes the sun burn bright in the sky.
To simplify: I want to know. . . want to know why!

By Science.
With Science.
Through Science we will know.
From Science,
Real Science,
We'll come to know.

By Science.
With Science.
Through Science we will know.
From Science,
Real Science,
We'll come to know.
I want to know.
I want to know.
Oh, yes, I want to!
Oh, yes, I want to know!

I want
to know.
Yes, I want to know.
I want

I want to know!

Oh, yes, I want to know!
