

THE CONESTOGA WAGON - Part 2 of THE HISTORY OF TRANSPORTATION MEDLEY

Getting across land was a different matter. What was needed was a good team orator: Getting across land was a different matter. What was needed was a good team of horses and a sturdy wagon. None was better than the Conestoga Wagon and its 6-horse team that tackled the Old West.

Rig up the horse 'and wagon,
Pack up the pots 'n pans.
Round up the food 'n blankets:
We're ready to hit the trail again.

Strength and courage;
Helping hands.
Facing dangers
Across the prairie land.

Stretch out the clean white canvas,
Buckle it down secure.
Ready to help your neighbor:
We're across the prairie land.

Rivers to ford;
Wind and rain
Facing dangers
Across the prairie land.

We've got our Conestoga
Driven by six horses.
We've got our cows for milking
And plenty of sun to guide our courses.

Live off the land;
Gun in hand.
Facing dangers
Across the prairie land.

Stretch out the clean white canvas,
Buckle it down secure.
Ready to help your neighbor:
We're across the prairie land.

Hills and valleys;
Mountains grand.
